SELF CARE

TIPS FOR SELF-CARE

TAKE TIME FOR YOURSELF

01

The first step to feeling your best on your wedding day is making sure you're taking care of yourself. Even if it's just a few minutes of alone time, set aside some time each week to practice self-care activities like taking a relaxing bath, reading a book or going for a walk. This is especially important if you have been busy planning the wedding and haven't had much time for yourself. You want to make sure that when it comes down to it, you're ready for everything that comes with being married!

02

EAT WELL

A healthy diet will help you look and feel your best on your wedding day. Incorporate plenty of fruits and vegetables, whole grains, and lean proteins into your diet. Avoid processed foods, sugar, caffeine as much as possible. You can still indulge in a treat here or there (like chocolate cake), but keep it to a minimum so that you don't sabotage all the hard work that went into prepping for the big day!

03

GET ENOUGH SLEEP

Getting enough sleep is one of the most important things you can do for yourself leading up to your wedding day. Your body needs time to rest and recover, so make sure that you're getting at least eight hours of sleep each night leading up to your big day. This will help ensure that you feel refreshed on your wedding day, which will allow for better overall health and energy levels throughout the day's festivities.

JOURNEY AN MAKE IT
WORTH!

TIPS FOR SELF-CARE

04

EXERCISE REGULARLY

Regular exercise will help you look and feel your best on your wedding day. Try to get at least 30 minutes of exercise each day, whether it's walking, running or yoga. Your body will thank you for it!

05

PRACTICE RELAXATION TECHNIQUES

One of the most important things you can do for yourself is practice relaxation techniques. This can be as simple as deep breathing or meditation.

06

PAMPER YOURSELF

It's essential to take some time for yourself before your big day. Take a bath, get a massage, or even do something as simple as getting your nails done. This will help you feel relaxed and refreshed so that you can enjoy the rest of your wedding planning process!

07

SPEND TIME WITH FRIENDS AND FAMILY

Spending time with friends and family is one of the best ways to reduce stress and get support. They can help you stay grounded and focused on the big day. If you don't have a lot of time, consider scheduling a date night with your partner or going out for dinner with your bridal party.

ROMANCE.”

TIPS FOR SELF-CARE

08

HAVE FUN

Have some fun!

The wedding planning process can be stressful, but it's important to remember to take some time for yourself. You don't have to do everything on your own and you don't need to be perfect. Take a break from the stress and enjoy being engaged with your partner, friends and family members.

09

GET IN TOUCH WITH YOUR MAKEUP ARTIST

If you're planning a wedding, it's important to find a good makeup and hair artist. A skilled professional can help you look your best on your big day and make sure that your makeup lasts through all the tears of joy and dancing that will happen throughout the night ; and that is why we are here for! You don't have to hire someone else for every single appointment; just get in touch with us to do your hair and/or makeup for each event leading up to the wedding day (such as engagement photos; hens night; bridal shower) so we can create each look flawlessly for you.

10

ENJOY THE MOMENT

As the day approaches, it's important to take care of yourself and do what you can to ensure that you are at your best. As a makeup artist, I have seen many brides who are stressed out on their wedding day. The stress can get to them and they may not enjoy their special moment as much as they should because they are too busy worrying about everything else. I recommend that brides-to-be take a few moments before the ceremony begins in order to enjoy themselves and savor this experience which will be over before they know it!

Maintaining your skincare routine including deep cleanse (to remove makeup and dirt), exfoliate (no more than 2 times per week), moisturiser and sunscreen.

Always apply enough amount of sunscreen for your skincare and makeup routine to protect your skin from the harsh sun even on cloudy days.
